

Ejercicios propuestos apuntes

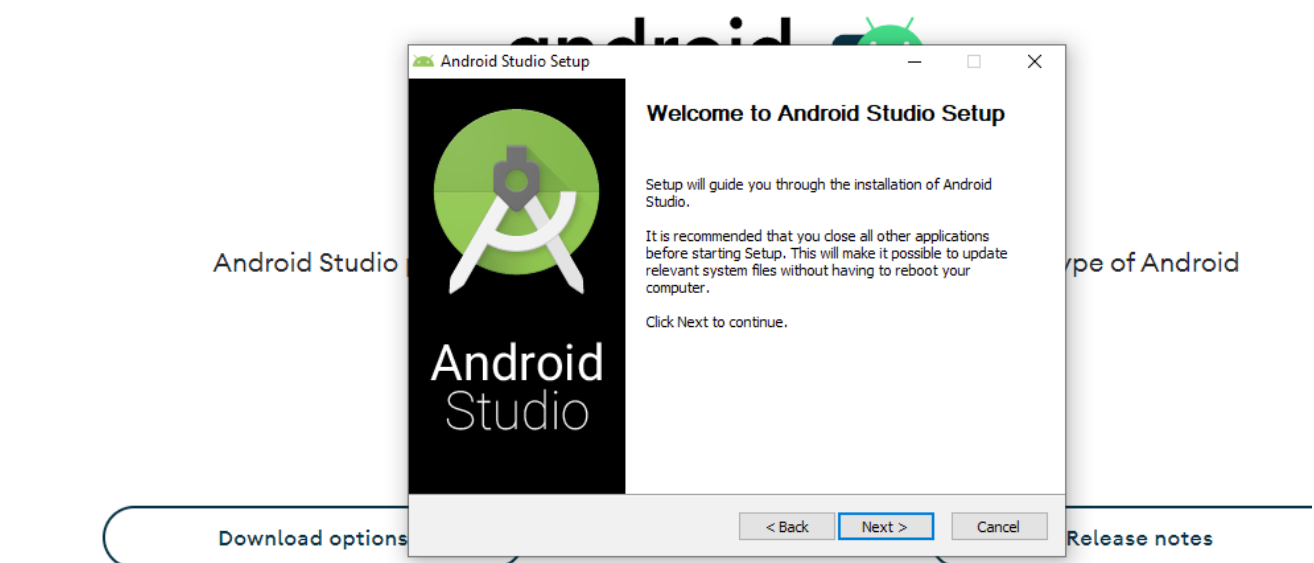

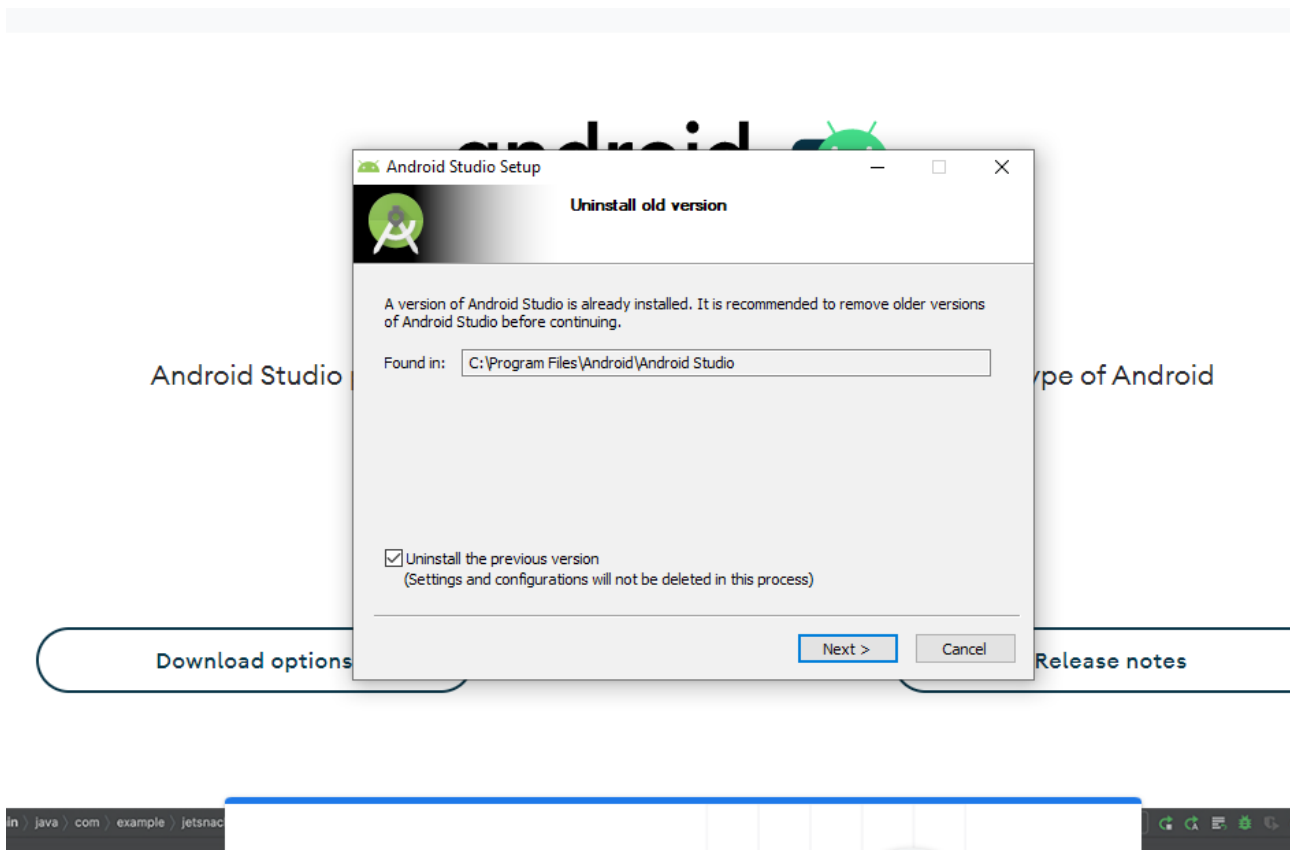

1.2.1. Instala Android Studio para el sistema operativo que vayas a utilizar.

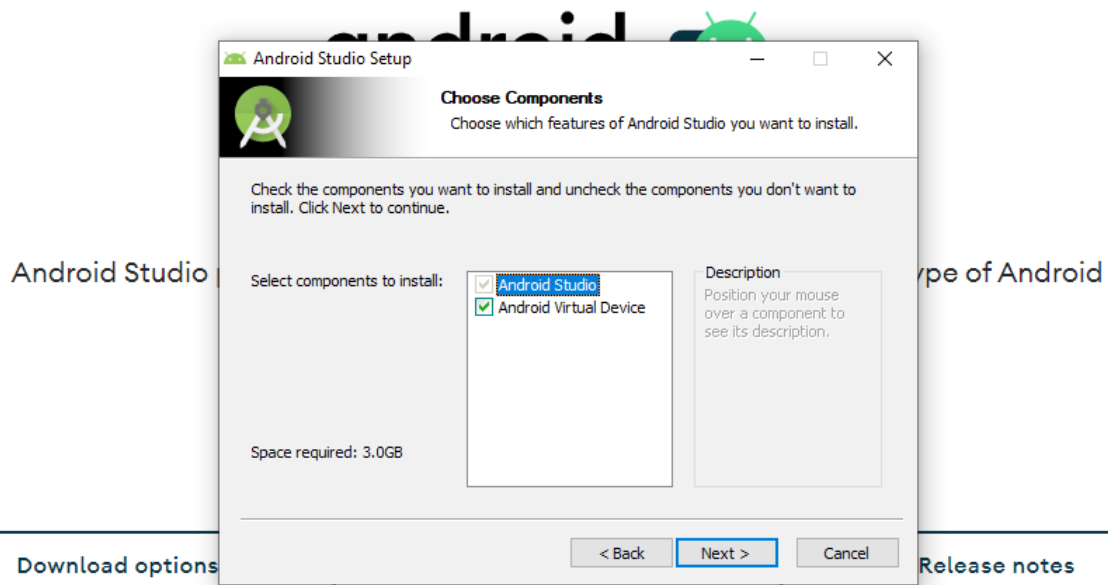

Primero vamos a la página oficial de Android Studio y descargamos el programa.

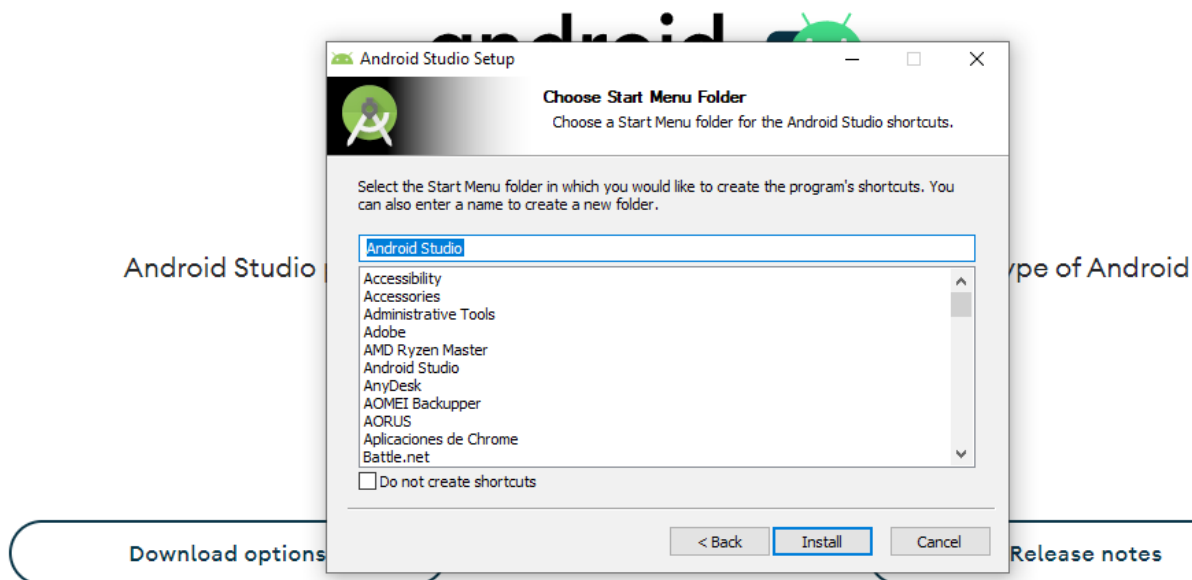

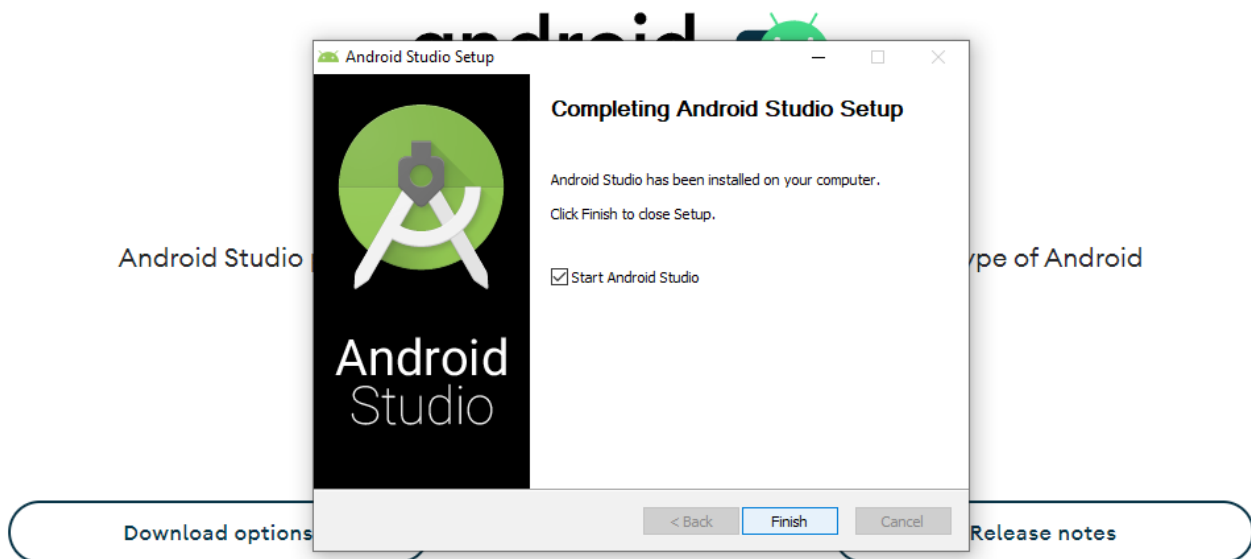

Después de descargar el programa de la página oficial, lo instalamos.

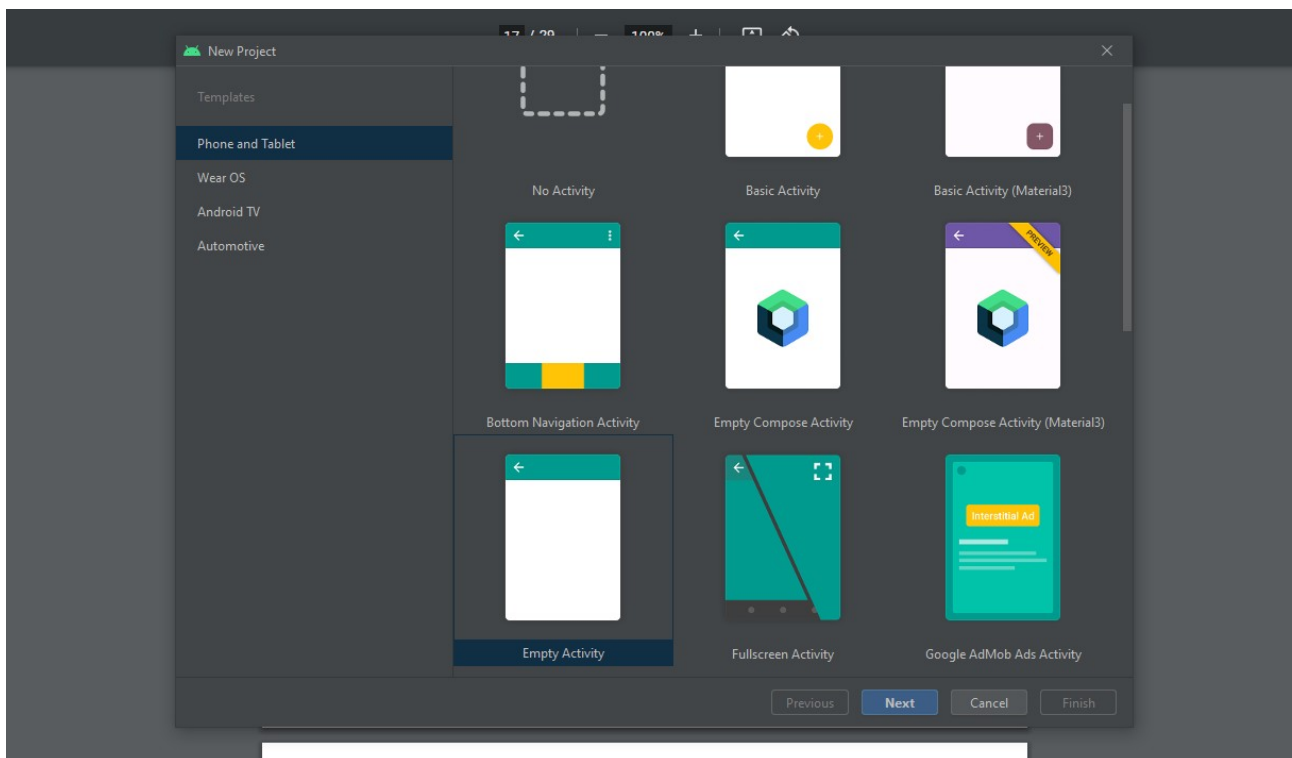

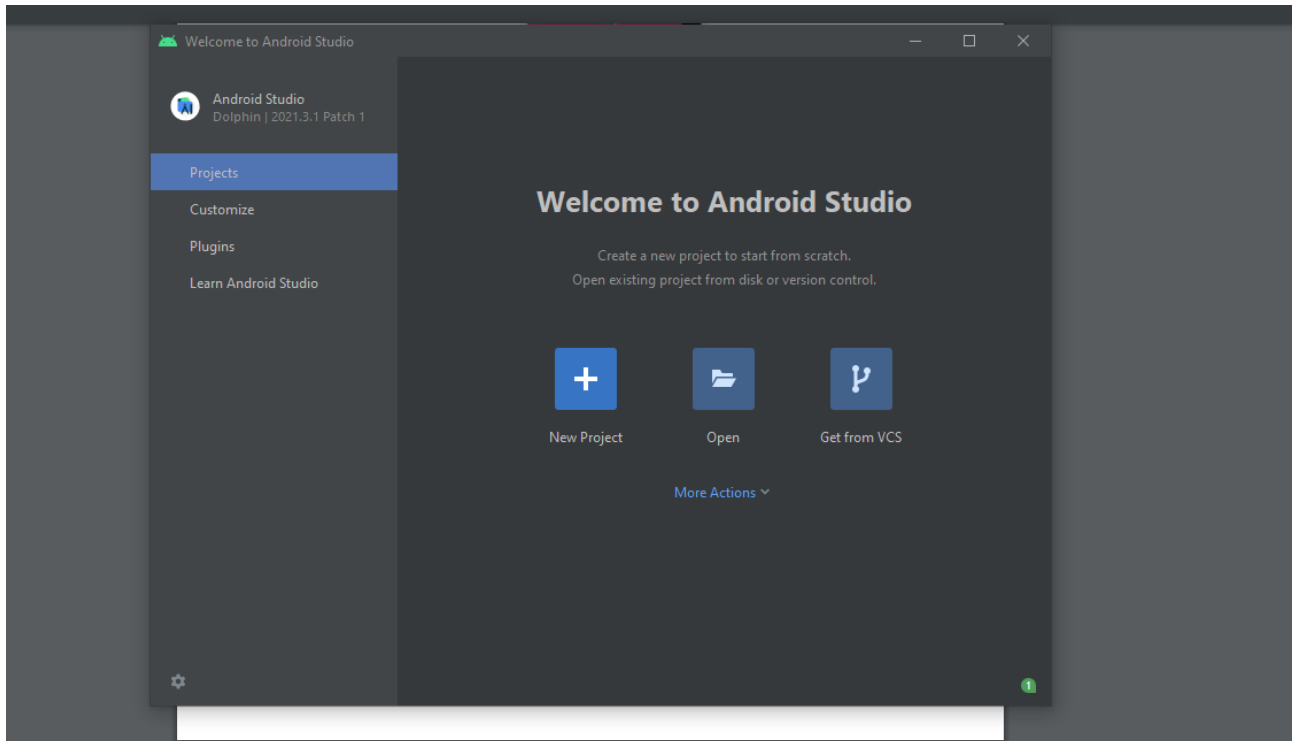

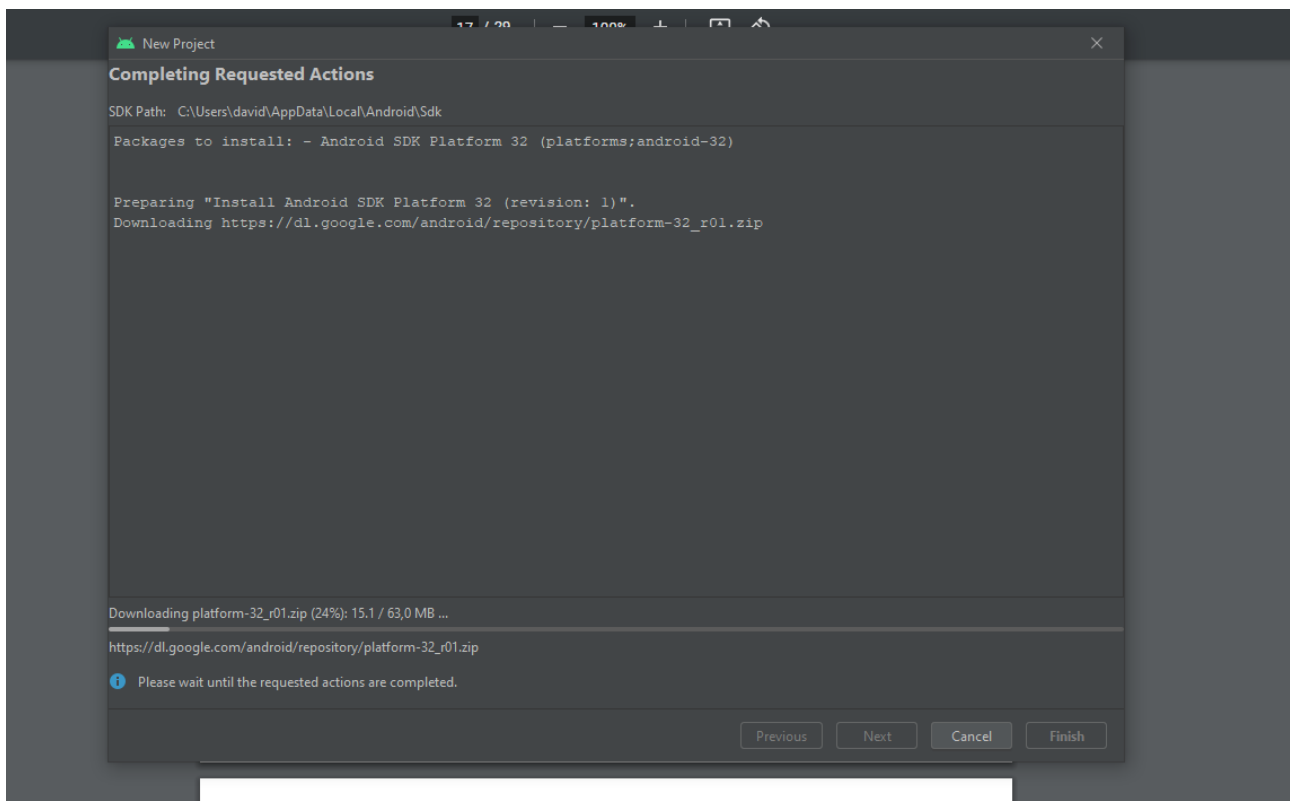

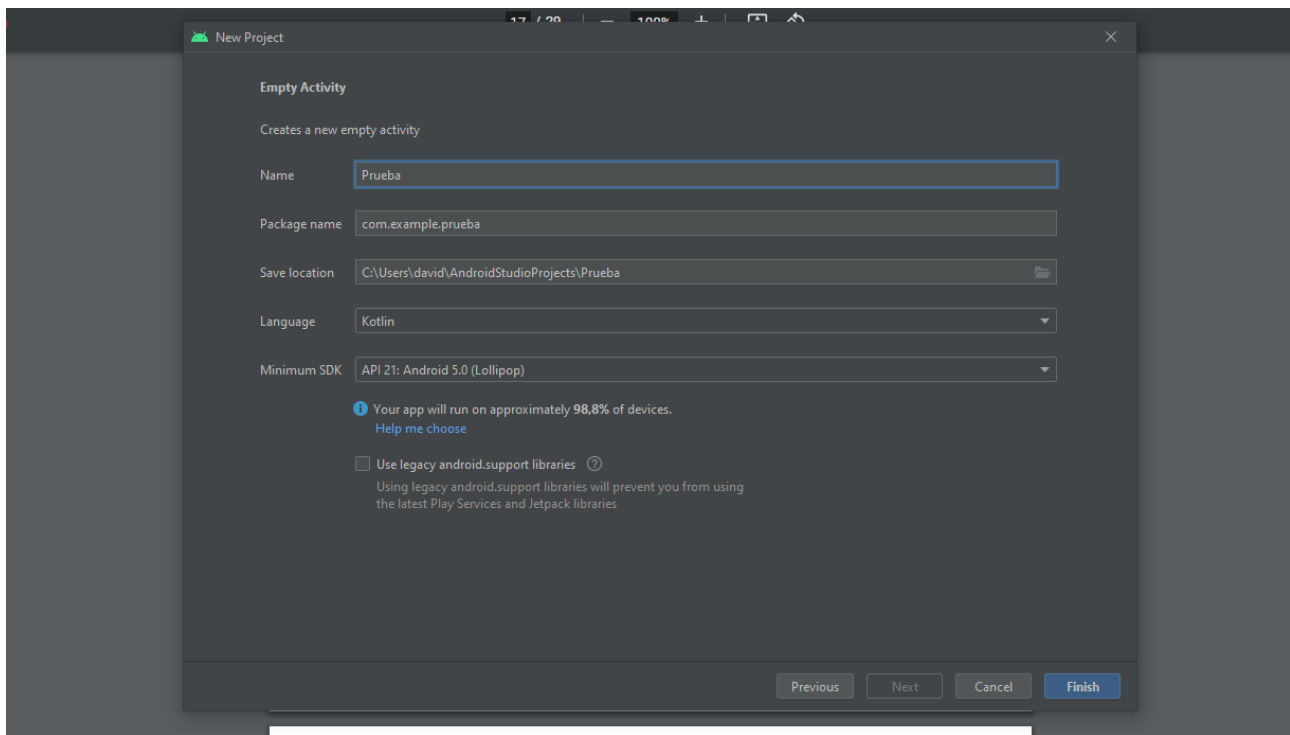

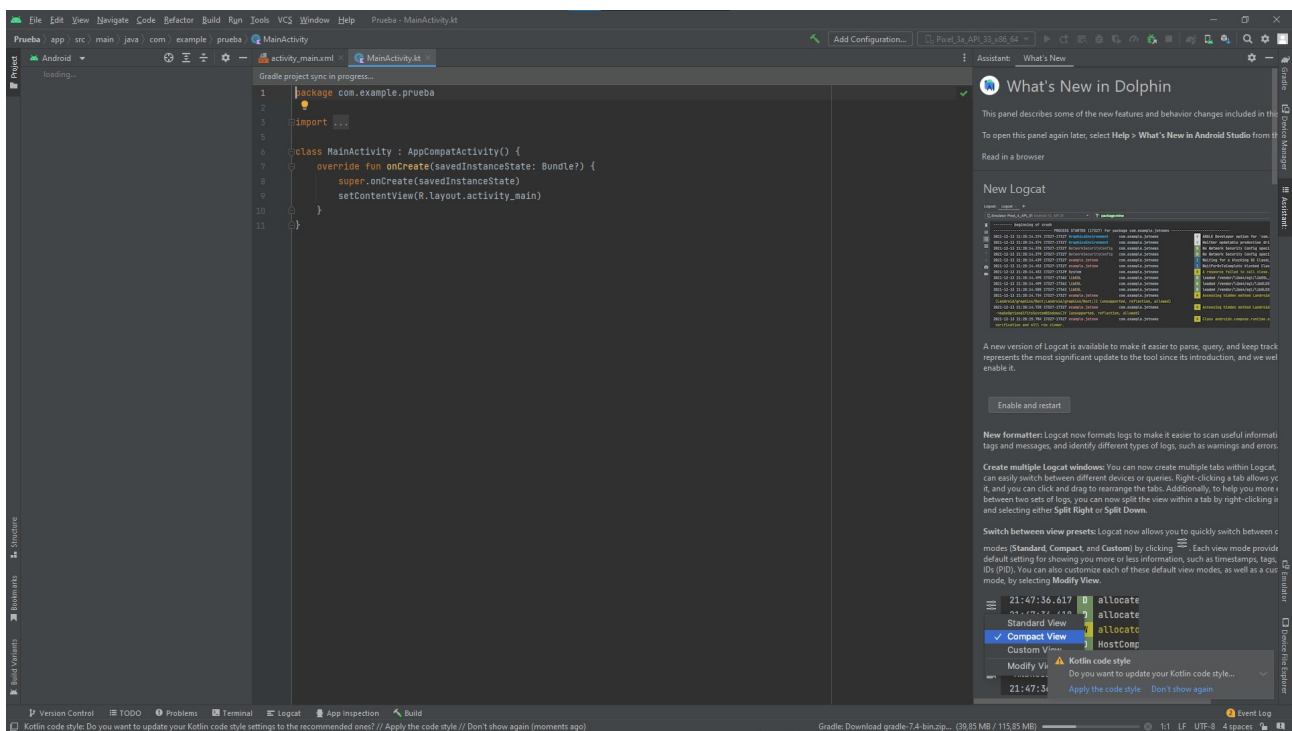

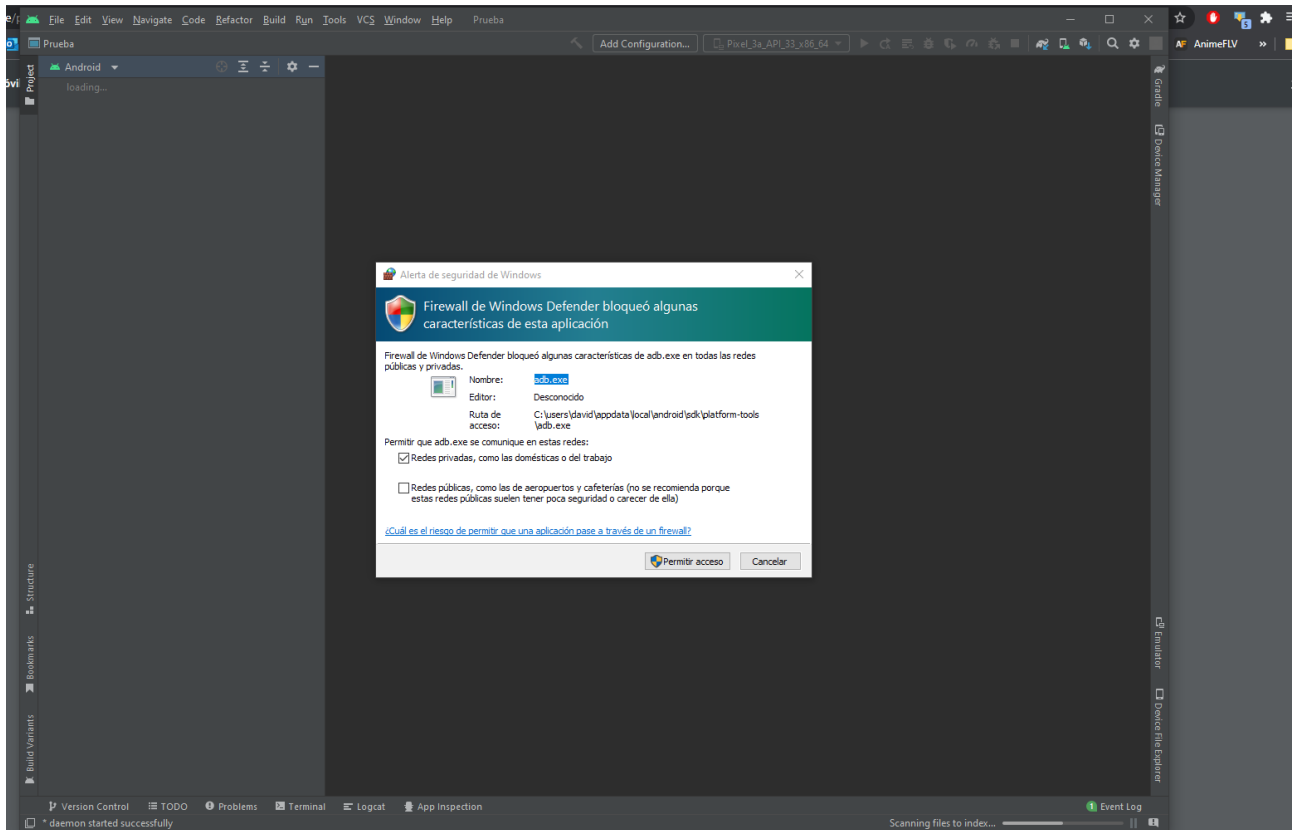

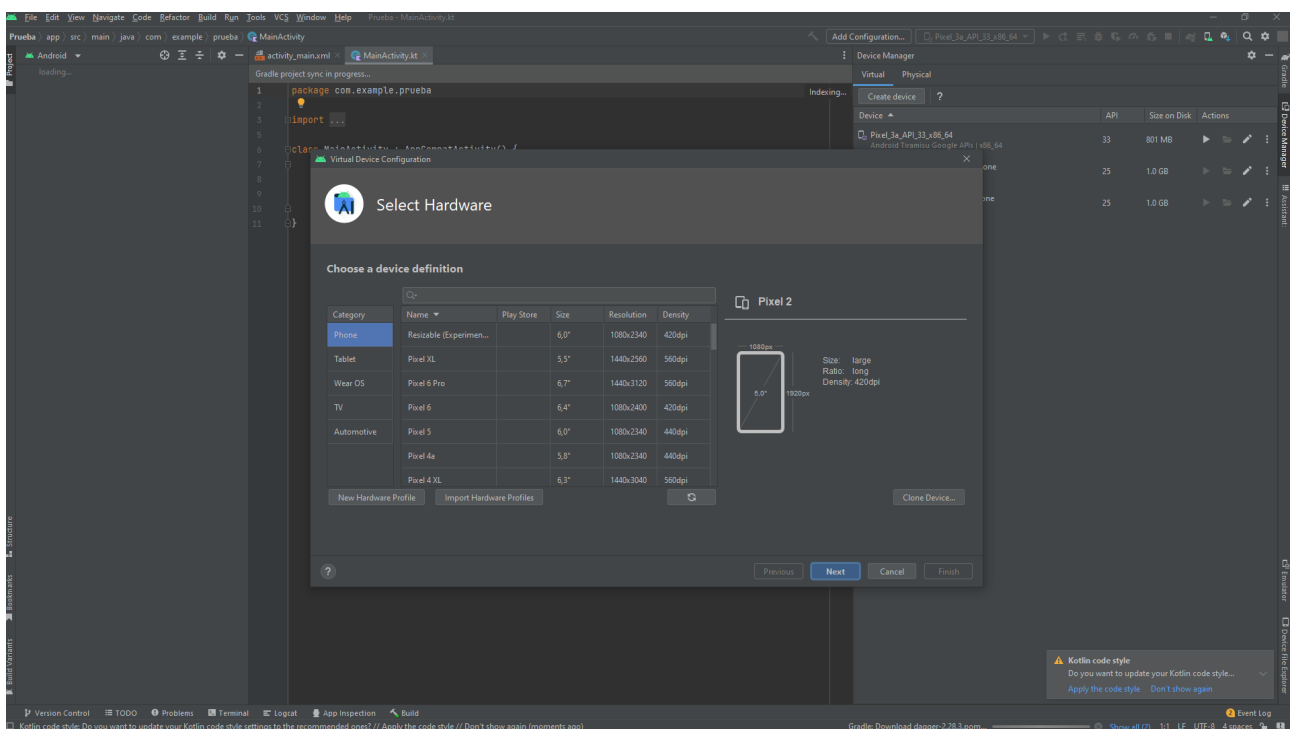

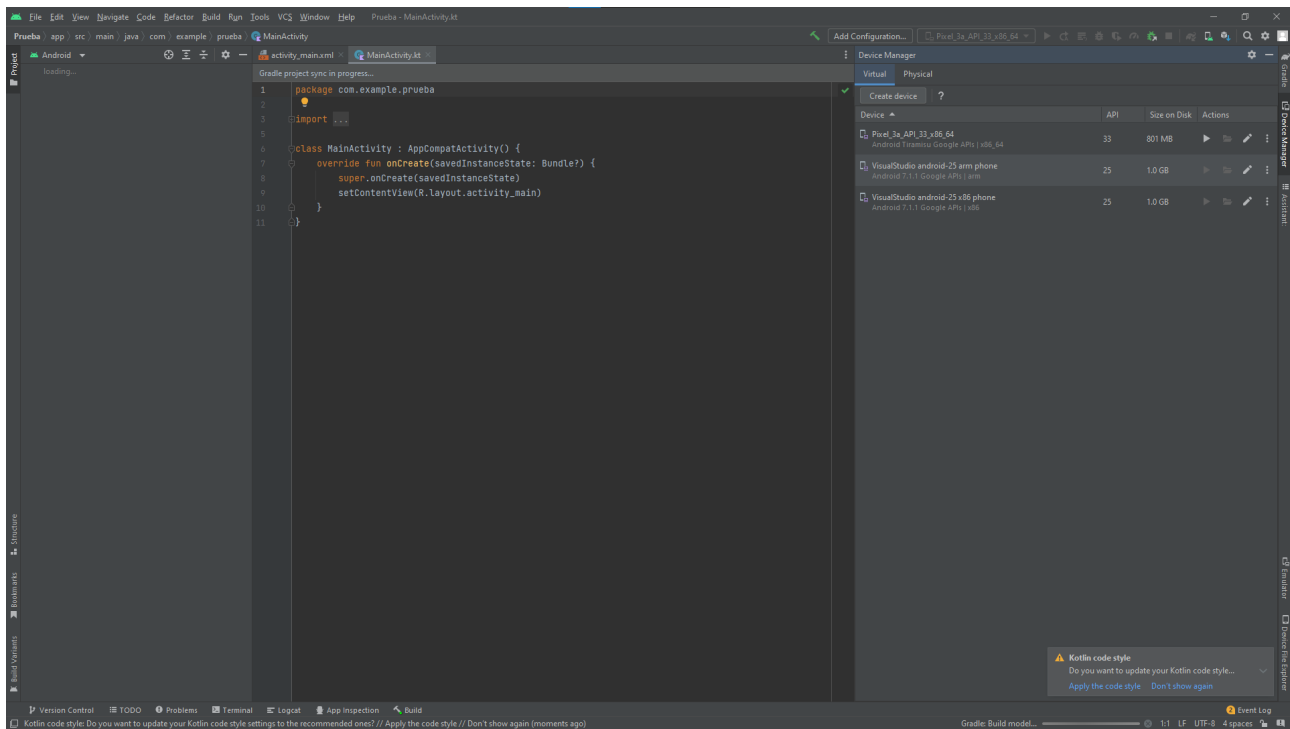

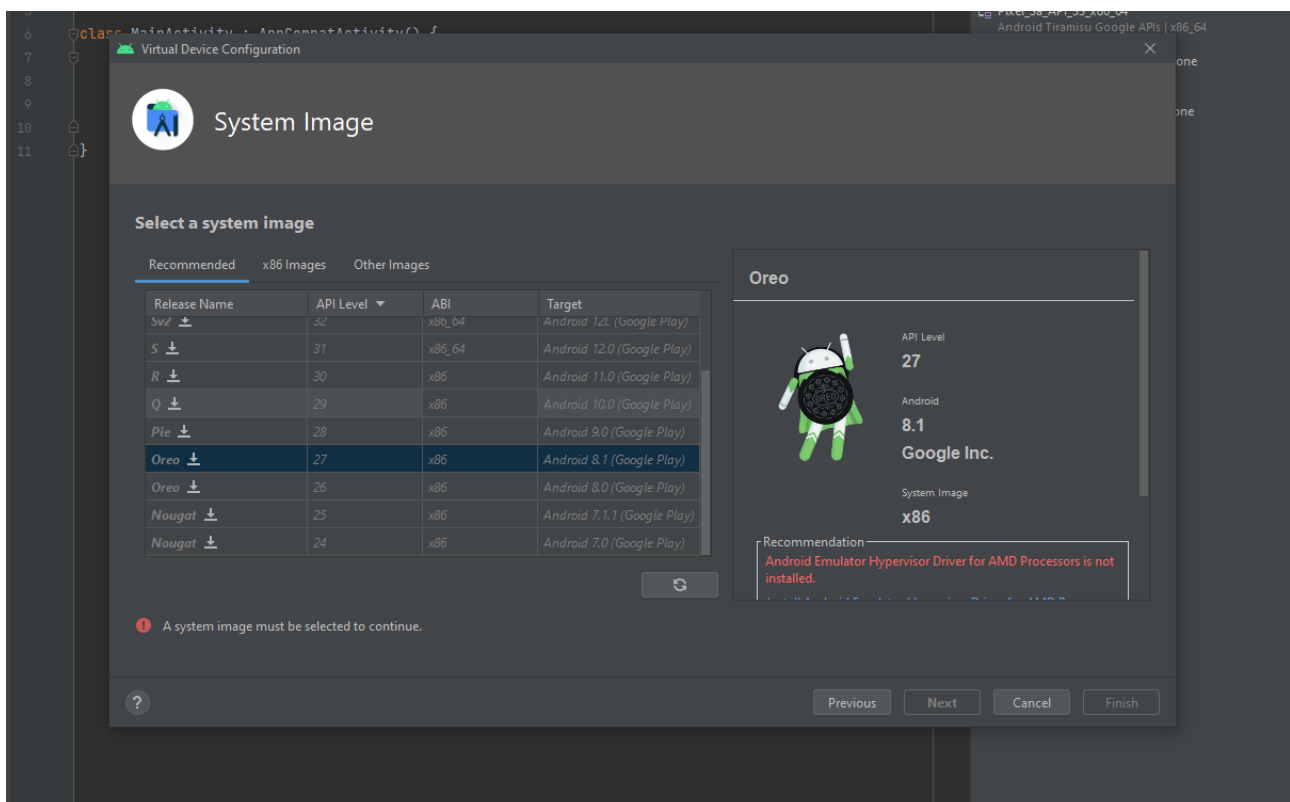

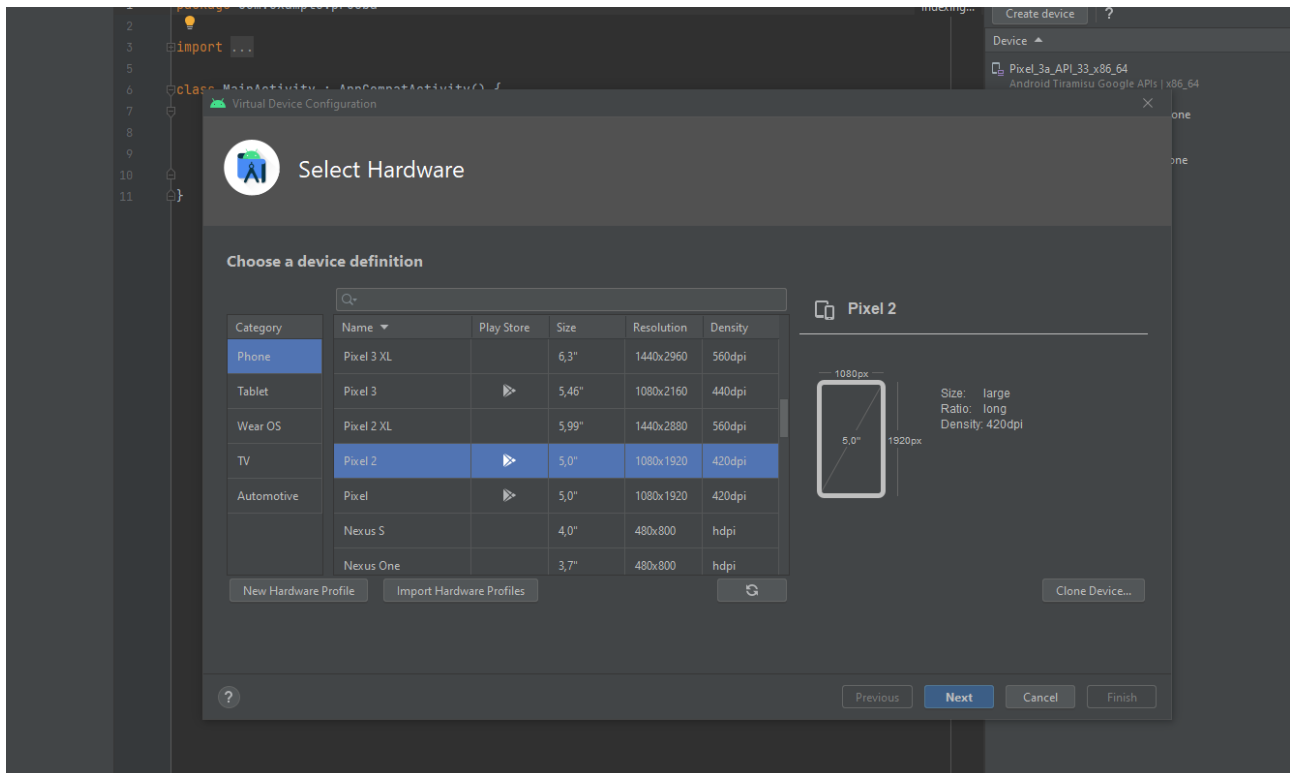

1.2.2. Crea un nuevo dispositivo móvil virtual a tu elección utilizando AVD, pero esta vez, que utilice como sistema Oreo con API Level 27 (Android 8.1).

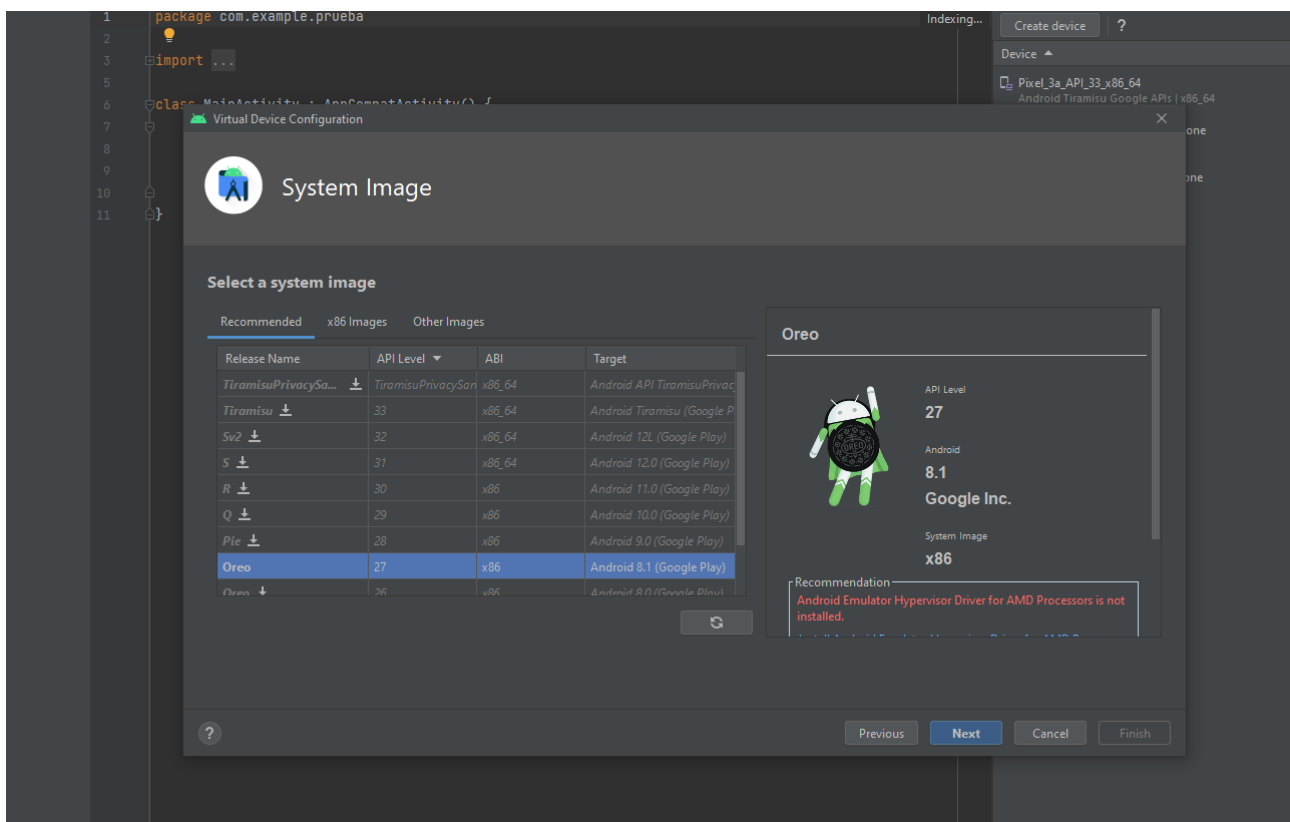

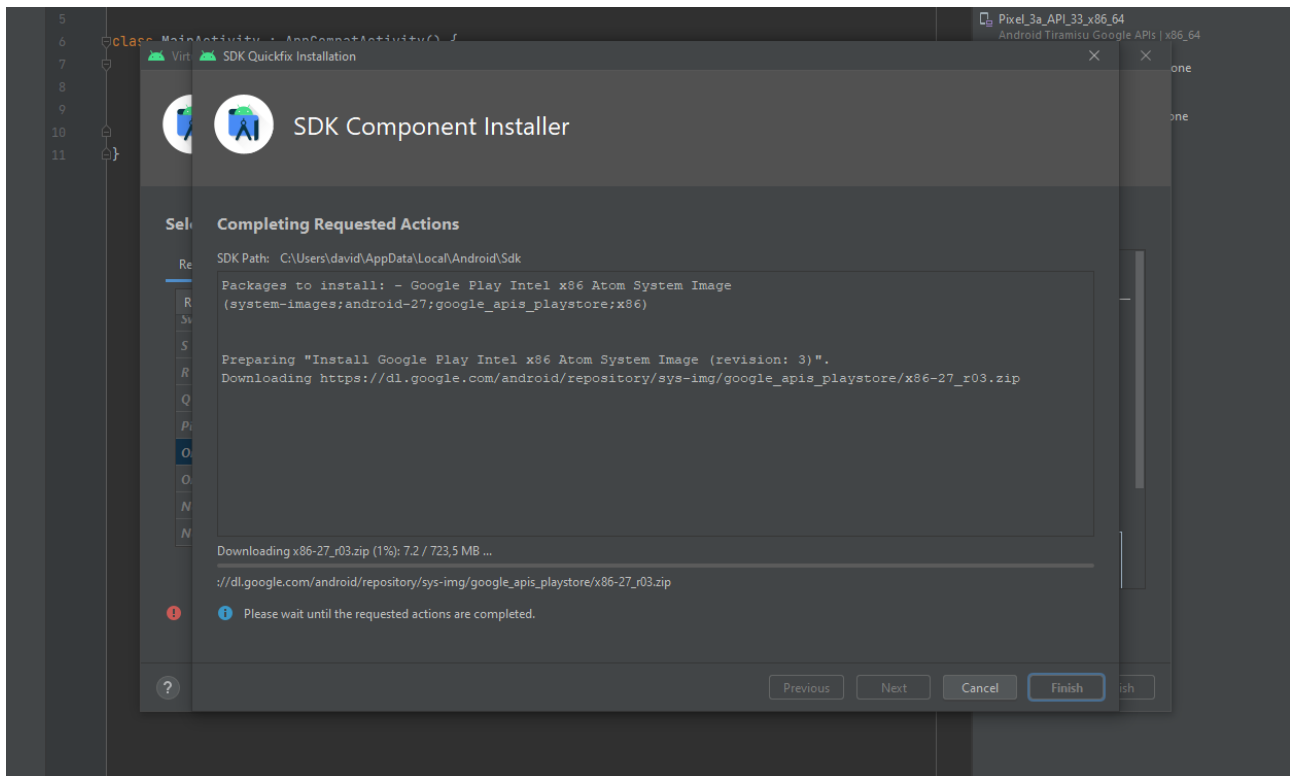

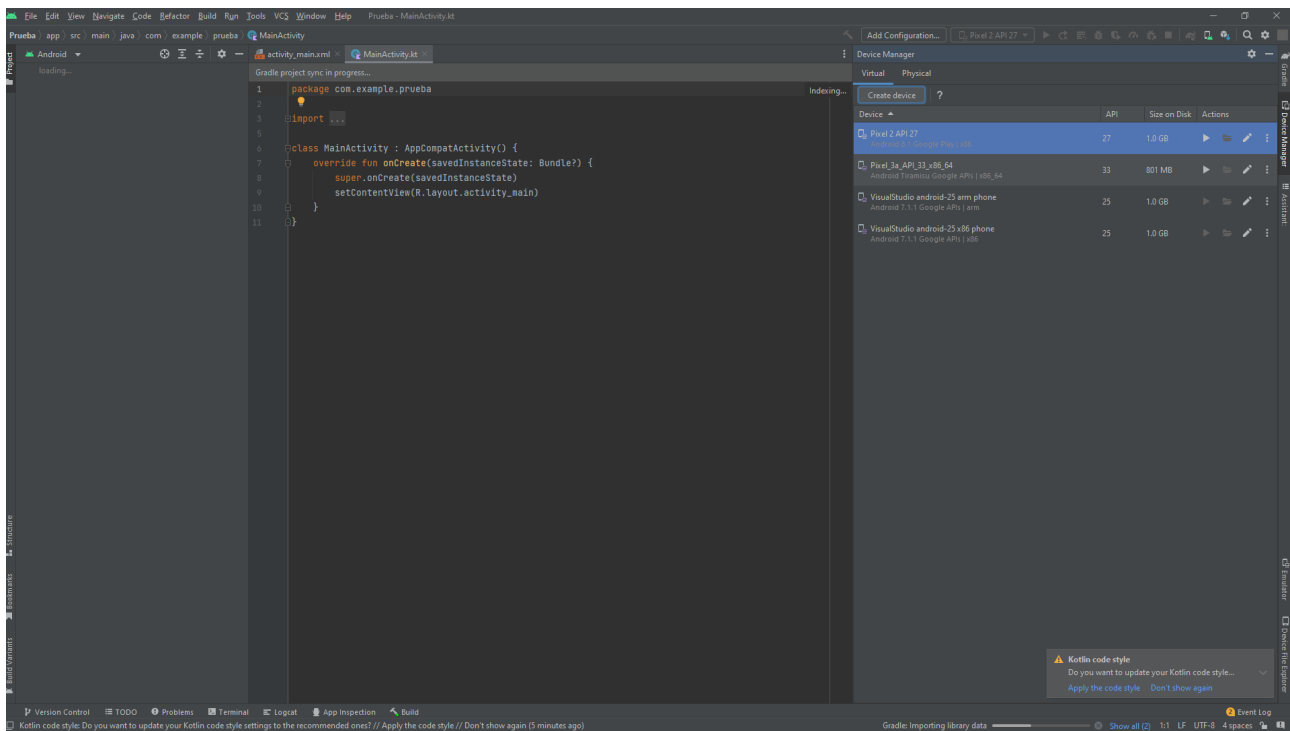

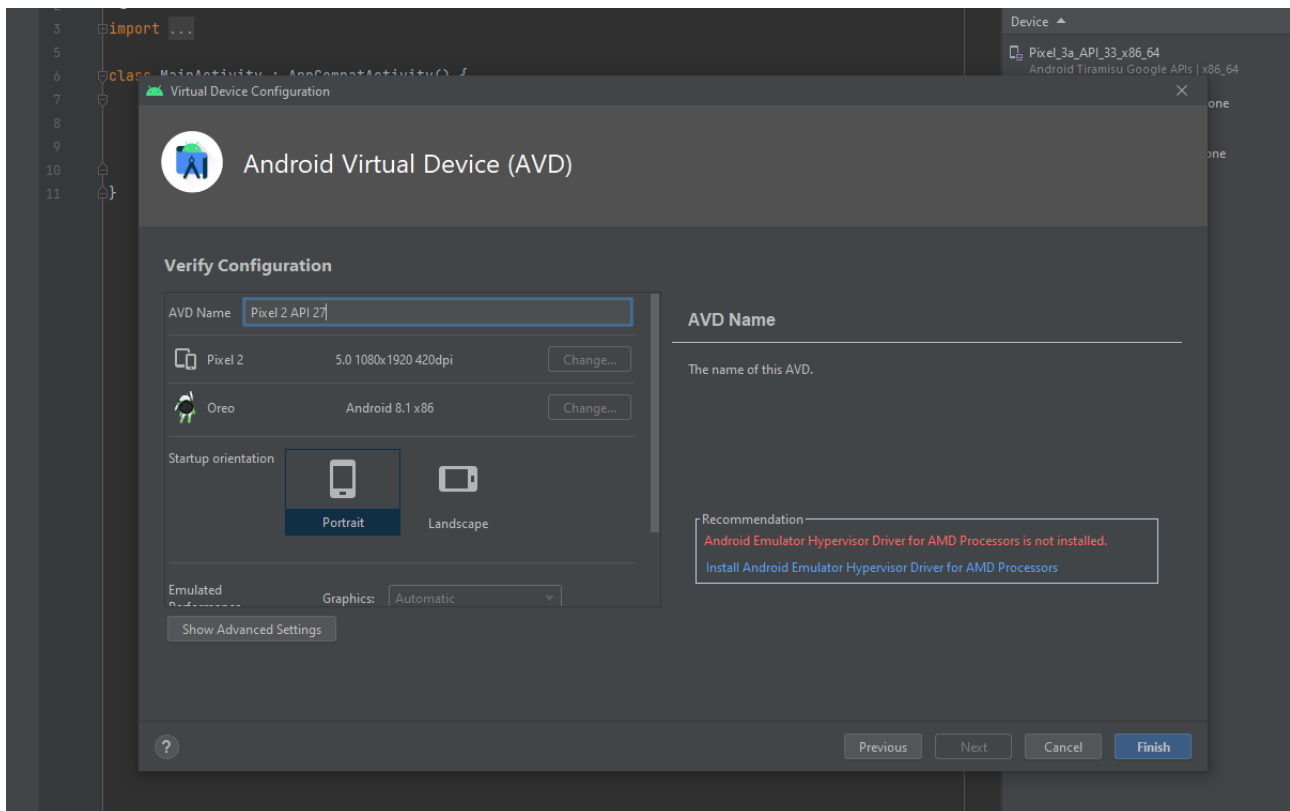

1.2.3. Realiza una grabación mostrando el funcionamiento de la aplicación My Hello World en la que se pueda ver como se ejecuta, mostrando el Toast sin nombre y el Toast con tu nombre y primer apellido.
